**We now show films in 4K!**

"4K" is a visual resolution term. It offers significantly greater video clarity and detail than 2K (standard resolution) due to its higher pixel count. The increased pixel density results in sharper edges, more precise rendering of fine details, and an overall crisper visual experience. Films with the 4K logo on this page will be projected in 4K.

*Thanks to the Cascade Foundation's gift of a new projector that makes this possible!*
